

Filters, Regulators and Lubricators

All Coilhose Pneumatics Filters, Regulators and Lubricator units are designed for easy installation and maintenance.

Miniature Series

The Miniature Series is designed for applications where space is limited and flow requirements are low. They excel in control panels and miniature circuitry. Each unit can be disassembled by hand for easy maintenance.

26 Series

The 26 Series offers a great balance of compact size and optimum flow. This series is perfect for applications where performance, small size and low cost are important. Regulators can be configured with gauges, different pressure ranges and mounting options. The filters and lubricators can be configured with metal bowls and filtration levels.

27 Series

The 27 Series is engineered to provide exceptional design and installation flexibility. Regulators have a multitude of pressure and gauge options. The filters and lubricators can be configured with metal bowls and various filtration levels.

- Designed for small spaces and low flow applications
- Available with 1/4" and 1/8" NPT ports
- Available in combination assemblies
- Compact, a great balance of flow and size
- Available with 1/4" and 3/8" NPT Ports
- Available in combination assemblies
- Modular, offers easy installation and servicing with its mounting and connecting clamps
- Available with 3/8", 1/2" and 3/4" NPT Ports
- Available in combination assemblies

Heavy Duty 88 Series

Heavy Duty Series have a long-established reputation for high quality and unsurpassed reliability. Regulators have multiple pressure ranges available as well as tamperproof models. The Filters and Lubricators can be configured with metal bowls and varying filtrations levels.

General Purpose Service

The General Purpose Series offers port size ranges that allow reliable interchange with other manufacturers. Ideal where pressure must be held constant over a wide variation of flow. An excellence choice for most industrial applications.

29 Series

A broad line of modular units offering easy installation and servicing.

- Our most popular series, tough and dependable
- Available in multiple body sizes and ports ranging from 1/4" to 1" NPT
- Available in combination assemblies
- Available in a broad range of sizes from 1/4" to 2" NPT
- Filters and Lubricators are available with metal bowls
- Available in combination assemblies
- Available in multiple body sizes and ports ranging from 1/8" to 1" NPT
- Many accessories including brackets, mounts & gauges
- Available in combination assemblies
