Information for doctor:

Most important symptoms/effects, acute and delayed Repeated exposure may cause skin dryness or cracking. May cause drowsiness or dizziness.

Description of necessary first aid measures / specific treatments None Known.

SECTION 5: FIREFIGHTING MEASURES

Extinguishing Media

Suitable extinguishing agents	Foam, Alcohol foam, CO2, Dry chemical, Water fog. Water spray may be ineffective.
Unsuitable extinguishing agents	Water spray may be ineffective
Special hazards arising from the substance or mixture	Closed containers may explode from internal pressure build-up when exposed to extreme heat and discharge contents. Liquid content of container will support combustion. Overexposure to decomposition products may cause a health hazard. Symptoms may not be readily apparent. Obtain medical attention. Hazardous decomposition products include carbon dioxide, carbon monoxide, and other toxic fumes.

Special Fire Fighting Instructions

Water may be used to cool containers to prevent pressure build-up and explosion when exposed to extreme heat. Wear goggles and use self-contained breathing apparatus. If water is used, fog nozzles are preferred.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures

Avoid breathing vapors. Ventilate area. Remove all sources of ignition.

Methods and materials for containment and cleaning up

Clean up with absorbent material and place in closed containers for disposal.

Appropriate engineering controls

Ventilation should be sufficient to prevent inhalation of any vapors . General dilution and/or local exhaust ventilation in volume to keep PEL/TLV of most hazardous ingredient below acceptable limit and lel below stated limit.

Exposure controls

Personal protective equipment

Eye / Face Protection

None under normal use. However, use of safety glasses with splash guards or full face shield should be used if indicated.

Hand Protection

Protective Gloves

None under normal use. Use solvent-resistant for prolonged or repeated contact.

Respiratory Protection

None under normal use. Avoid breathing vapors. In restricted areas, use approved chemical/mechanical filters designed to remove a combination or particles and vapor. In confined areas, use an approved air-line respirator or hood. Self-contained breathing apparatus is required for vapor concentrations above PEL/TLV limits.

Other protective clothing or equipment

None under normal use. However, use of solvent- resistant aprons or other clothing is recommended. Eye washes and safety showers in the workplace are recommended.
